

LSI Consulting is a SAP and Business Objects services partner specializing in the public sector with an exceptional reputation for quality. LSI's tremendous growth is fueled by our GovOne™, CampusOne™, and HealthOne™ template-accelerator solutions for the Public Sector markets we serve, as well as our Remote Application Managed Services business. As a result of this growth we are looking for experienced SAP consultants for our public sector practice. We are currently seeking the following:

SAP Business Objects Universe and Report Developer:

Skills Summary

LSI Consulting is looking to hire an SAP Business Objects Universe and report developer to implement semantic layers as well as reporting and dashboard solutions against SAP BW solutions.

Responsibilities:

Will be responsible for the complete design and configuration of the semantic layers, as well as presentation layers using SAP Business Objects.

Required Skills:

- Highly experienced in implementing SAP Business Objects solutions, across various data warehouse layers
- Ability to Conduct Requirements Workshops and interact with audiences
- Excellent problem-solving and analytical skills
- Knowledge of Public sector budget preparation processes – especially Higher Education - is a plus

Professional Skills

- 4-6 years of professional consulting services experience on project implementation teams.
- Multiple full lifecycle implementations, preferably for a public sector client.
- Able to collaborate with clients and offer solutions for business problems.
- Candidate must have:
 1. Excellent oral and written communication skills.
 2. Leadership qualities and presentation skills.

Ability to coordinate and interact with all role players on the project team. Please know that 100%, weekly travel is required. *LSI Consulting offers a highly competitive salary, revenue driven bonus, and profit sharing 401K plan, along with top notch, fully company funded medical and dental coverage.*
