

LSI Consulting is a SAP and Business Objects services partner specializing in the public sector with an exceptional reputation for quality. LSI's tremendous growth is fueled by our GovOne™, CampusOne™, and HealthOne™ template-accelerator solutions for the Public Sector markets we serve, as well as our Remote Application Managed Services business. As a result of this growth we are looking for experienced SAP consultants for our public sector practice. We are currently seeking the following:

SAP Business Objects Architect:

Skills Summary

LSI Consulting is looking to hire a seasoned SAP Business Objects architect to design, install and implement solutions by providing leadership as well as architectural services on deployment projects.

Responsibilities:

Will be responsible for providing best practice Business Objects architectural, installation and security design services, through proposed design, as well as hands-on configuration.

Required Skills:

- Highly experienced platinum-level resource, implementing Business Objects solutions across multiple data warehouse layers
- Providing Architecture / implementation roadmaps on Business Objects / Intelligence deployment projects
- Have led installation and implementation of Business Objects Projects
- WebI and BO Universe experience
- Designed security models for Business Objects solutions
- Strong understanding of data federation
- Dashboard design and build experience, with strong Executive Dashboard background
- Business Objects Application Developer experience
- Ability to teach and perform knowledge transfer, communicate clearly and effectively and answer user questions
- Team player, with strong emphasis on knowledge sharing
- Ability to Conduct Requirements Workshops and interact with audiences at C-level
- Strong ability to support pre-sales activities, and present topics at business intelligence conferences
- Over 8 years of Business Objects experience

Professional Skills

- 8-10 years of professional consulting services experience on project implementation teams
- Multiple full lifecycle implementations
- Able to collaborate with clients and offer solutions for business problems
- Candidate must have:
 1. Excellent oral and written communication skills
 2. Leadership qualities and presentation skills
 3. Ability to lead, coordinate and interact with all role players on the project team.

4. Ability to coordinate and interact with all role players on the project team.

Please know that 100%, weekly travel is required. *LSI Consulting offers a highly competitive salary, revenue driven bonus, and profit sharing 401K plan, along with top notch, fully company funded medical and dental coverage.*
