

LSI Consulting is a SAP and Business Objects services partner specializing in the public sector with an exceptional reputation for quality. LSI's tremendous growth is fueled by our GovOne™, CampusOne™, and HealthOne™ template-accelerator solutions for the Public Sector markets we serve, as well as our Remote Application Managed Services business. As a result of this growth we are looking for experienced consultants for our Finance practice:

SAP Grants and or Funds Management (GM and FM) - Functional Consultants

The candidates should have a minimum of two full cycle implementations of SAP experience, plus experience in Higher Education, State and Local Government or K-12. Certification in Public Sector integration is desirable.

Required Skills

- Experience using SAP Funds Management for budgetary accounting and availability control
 - Experience with Budget Control System (BCS) in Funds Management
 - Experience with configuration and troubleshooting of commitment and actual update settings
 - Experience with maintenance of derivation rules
 - Experience with control and management of earmarked funds documents
 - Understanding of procedures for period and year end closing

- And or Experience using SAP Grants Management for grant accounting, billing and availability control
 - Experience with grant master data configuration
 - Experience with Business Partner master data configuration
 - Experience with SAP Project System or Internal Order Accounting master data configuration
 - Experience with configuration and troubleshooting of commitment and actual update settings
 - Experience with configuration of value types

- Experience with configuration and maintenance of derivation rules
 - Experience with control and management of posting controls
 - Experience with overhead cost allocation
 - Understanding of procedures for period and year end closing
 - Experience with configuration of grant billing using resource related billing functions in SAP Sales and Distribution
- Good written and verbal communications skills

Education/Experience:

- Bachelor's and or Master's Degree in Computer Science, Information Systems, or other equivalent Public Sector experience is highly desired
- 7+ years of IT and business work experience and/or consulting function desired

Please be aware that this position requires travel in the U.S. each week. Consultants are expected to travel, independent of job location and to be very flexible with their travel schedules.
